Letter from Charles Watts to Baden-Powell

1 page

Letter from Charles Watts, Vice Chairman, Rationalist Press Association, to Baden-Powell expressing pleasure in *Rovering To Success* but complaining about certain perceived inaccuracies in the chapter on Irreligion. B-P has included a quotation which he states comes from the journal of the Rationalist Press Association but Watts suggests that B-P may have been misled by the Christian Evidence Society and encloses a cutting from the Rationalist Press's *Literary Guide* of May 1922 as evidence. Watts asks B-P to make the necessary corrections in future editions of *Rovering To Success*. He also complains that B-P seems to fail to understand the objectives of Rationalists but that they are as keen as B-P to raise children's moral standards and encloses some of the Press's booklets in evidence for B-P to consider.
